

Governor Rauner,

As an Illinois citizen, I am angered and saddened at the lack of action regarding a state budget. Likewise, I am also extremely concerned about the impact on our schools, community colleges and public universities, nursing homes, social service agencies, and other institutions that depend on state funding to serve students, the elderly, and those who desperately need physical, mental or emotional health services.

Both the executive and legislative branches in Springfield are holding hostage the most vulnerable among us, and it is time for that to change. I urge you to put aside your differences with legislators and come together to solve this issue by passing - and approving - a budget that fully funds education, higher education, and social services.

Sincerely,
